Dear Dr. Seema,

We want to express our commendations and congratulations to you and your institution for the successful completion of the Gender Atlas Project sanctioned by National Mission for Empowerment of Women (NMEW) (Ref. No. 11-16/2013-NMEW/62). The use of Geographic Information System (GIS) in the preparation of each Thematic Plate has made the Atlas more scientific and devoid of biases.

We have thoroughly enjoyed the presentation and going through the unique and informative document which depicts gender disaggregated data and statistics across the country. The Geospatial and Thematic Perspective of the Atlas will help Social Analysts, Policy Makers, Research Scholars and others in analysis of many relevant issues related to gender differentials in a holistic and integrated manner. We hope that this Atlas will be used to its full potential towards mainstreaming gender concerns across policies, plans and programmes. We also hope that the information gets updated from time to time in order to remain contemporary and continue to serve as useful reference material.

May your future endeavors be as successful as this one has been.

With regards,

Yours Sincerely,

*Sarada Ali Khan*
