Annual Report

2017-18

Good Evening Everybody!

It is a moment of great honour for me to celebrate the 64th Annual Day of our Kirori Mal College with all of you — Honourable Chief Guest, Mr. Ashwini Kumar Chand; respected Guests of Honour — Professor Manmohan, Mr. Santosh Kumar, and Mr. Amaresh Awasthi; our Special Guests — Shri Raj Kumar Bhatia, Shri T. S. Kripanidhi, Dr. Kirti Ranjan, Lt. General I. J. Singh, Prof. Nilika Mehrotra, and Justice A.K. Patnaik; dear colleagues and staff members, and, of course, my dear students, I warmly welcome all of you to this very special occasion of the Annual Day 2018. Indeed, it is very special day as it encapsulates all the 365 days that have gone into the making of the last academic year. It is a day on which we count our blessings and achievements. Students are felicitated for academic excellence and for their achievements in extracurricular activities. Much as the college is proud of its award winners, it also wants to tell each student out there that s/he is part of the KMC family and will always be cherished by us. As you all know, KMC values and nurtures the bond between students and teachers.

Friends, we are indeed privileged to have Mr. Ashwani Kumar, an IPS officer, with us today as our Chief Guest. Mr. Ashwani is a KMC alumnus of the 1993 Geography Honours batch. We are also fortunate to have in our midst our Guests of Honour — Professor Manmohan, Mr. Santosh Kumar, and Mr. Amaresh Awasthi. Mr. Santosh Kumar is also a KMC alumnus of the 1993 Statistics Honours batch. He is presently a Joint Secretary with the Indian Audit and Accounts Services. Mr. Amaresh Awasthi has again been a KMC alumnus. He graduated in Hindi Honours in 1991 from our College. Currently, he is the CEO of Kleenwel Enviro Engineering Services. All of you have, indeed, done the College proud by your achievements and by your contribution to society. I thank all of you, our Chief Guest, our Guests of Honour and our Special Guests for taking time out from your busy schedule to grace this occasion.

2016-17 was an important year in the history of our College. KMC became a NAAC accredited A+ graded multidisciplinary College. 2016 also saw the completion of our new Academic Auditorium which continues to host numerous academic events across disciplines. 2017 - 18 has been no less significant.

The year marked an important milestone in the journey of our College towards further progress in all spheres. The NIRF (National Institutional Ranking Framework) ranked KMC at position 20 among 4000 Colleges. Not only does this bear testimony to the vibrant academic atmosphere of the College but also reveals KMC's potential to achieve greater heights.

The readiness with which KMC has embraced the latest in technology is commendable. Digitalization has been incorporated in the functioning of the library. Some of the key features in the process of digitalization already at work in the library are: usage of smart cards, installation of chip technology in books, installation of a self-issue and self return kiosk, online access of the library's catalogue through the College website, and the transmission of SMS-alert to students whenever new books are procured by the library. These facilities have made the library more accessible and academically conducive.

Another one of our proud achievements has been the construction of a completely disabled - friendly campus. In 2017, the College held its first ever 'Sakshamta Diwas' wherein the talents of our differently-abled students were celebrated. On this occasion, to facilitate the movements of our physically challenged members, the lifts of the main building and the library building were inaugurated by the Chairperson, Professor Amitabh Mattoo.

We have also successfully completed the construction of a permanent stage behind the Staff Room in the Canteen grounds. The renovation of the Staff Room is going on in full swing and will soon reach completion. We're also working on the project of the construction of an elevator in the Science Wing.

It is with great pleasure that I share with you the excellent job carried out by the College Placement Cell. 86 students of ours have already got jobs in prestigious companies through our Campus Placement drive. Another outstanding venture in this academic year was marked as year of record sports laurels that includes 108 medals and championships in 13 different sports in men and women categories at Inter-college, State, Inter- University, National and International levels.

The Annual Report booklet is already in your hands. As you turn the pages, you will become aware of the activities that the Societies and College Departments were engaged in during 2017-18, and you will observe with pride the achievements of our students and faculty members. Indeed, our students have won accolades on all fronts—in academics, in sports, and in other extracurricular activities.

Our achievements in 2017-18 have been many, but we must not rest on our laurels. An important project that needs our immediate attention is the construction of the long-awaited College Auditorium, the Frank Thakur Das Memorial Auditorium. The College had initiated a fund-raising drive and civil work on the auditorium will soon commence. However, much more needs to be done on this front. I assure you that we will not be deterred by this challenge.

Another project, perhaps not as intimidating as the construction of the auditorium, but nevertheless essential in its own way, is the crèche facility on the College campus which we are planning to introduce for the benefit of the teaching and non-teaching staff.

To give a tangible form to our future plans, we need the support and encouragement of the members of the Governing Body and that of the entire staff. For their constant guidance and motivation so far, I express my gratitude to our esteemed Governing Body Members, and especially to our Chairperson, Prof. Amitabh Mattoo. Our manifold achievements in the academic year 2017-18 would not have been otherwise possible. I would also like to thank you, my dear colleagues and staff members, for the indefatigable zeal and dedication with which you all have been tirelessly working to make this College a premier institution of education.

We'll continue to develop the infrastructure of our College but as the true wealth of a college lies in its teaching faculty, we will endeavour to attract and absorb the best available talents. Like the tall Ashok trees that frame the College building, let us remain steadfast and committed in our pursuit of excellence and truth. As Jacques Derrida, one of the leading thinkers of our time, strongly asserts, and I quote, "The University professes the truth and that is its profession." This search for truth in all spheres will continue to guide and inspire us always.

In our journey towards excellence and truth, there are many more milestones that have to be crossed, but I am absolutely certain that together we will resolutely, unflinchingly move on and take the College to even greater heights.

Thank you very much!

IIT JAM (Joint Admission Test for M.Sc) - 2018 Chemistry

It is a matter of great pride for us that fourteen of our students from the Department of Chemistry have been selected in IIT JAM -2018 which, in itself, is a record achievement in the history of the College. Two of our students are in the top ten rank—1st and 5th. The 1st rank holder belongs to a farmer family of a village namely Bihta from Bihar and most of others are from middle class families.

Since the inception of The Round Table, various eminent people from all walks of life have graced our events, told their stories and inspired a plethora of students.

The Society organizes a Model United Nations annually. It aims to establish effective networking among the following five departments: A- Marketing Department; B-Creative and Promotion Department; C- Production Department; D- Corporate Handling and Content Department; and E- Technical Department. All these work interdependently to facilitate productive collaboration amongst them. By working in different departments, interacting with divergent diverse group of people and taking the baton of leadership in one's hand, a member of TRT gains ample exposure to later emerge as a more skilled and a tolerant individual. This Society helps in inculcating the values of team spirit, time management and a strong work ethic. Carrying the motto "Dialogue across Discipline", our mission is to apply insights of academic disciplines to explain various phenomena of the society and thus make everyday subject more relevant for all the students.

The Society kick-started the year with 'CROSSWORLD', the Annual Fest in September and closed the period with its annual extravaganza 'INTELLOSPHERE'. It saw the honourable Meira Kumar, Dr. Suman Khanna Aggarwal & Miss Ira Trivedi. The event was all about giving exposure to the students on how the real-world functions. The chief guest for KMCMUN was Mr. Varun Gandhi. The Round Table fully undertook 2 projects- 'Beti Bachao Beti Padhao' and 'Privatization of Education' and did extensive research on them to understand the currently-prevailing scenario and how to rectify them.

Infrastructural Committee

GARDEN COMMITTEE _____

The Garden Committee was actively engaged throughout the year with several developmental projects. Library lawns and the Ashok lawns were beautifully decorated with Caladiums (many types), Kochias, Portulacas and Sadabahars on the College Annual Day and on Prize distribution functions on 28th - 29th April 2017. Ahead of the abovementioned celebrations, the new fencing of the Ashok lawns had to be completed. Colouring of the flowering pots, the main gate and the new metallic railing were done with bright maroon paint which imparted a bridal look to the whole campus. Tree guards of bamboos fixed around young Ashok saplings, planted in front of the College Auditorium, made eco-friendly message loud and clear. It is a pleasure to mention that the dream-come-true project of providing stainless steel fencing around College staff-room lawn imparted royal look to the rear side which cannot be put into the words.

Throughout the summer, the Kochias and different varieties of Portulacas kept on imparting green look to the College garden despite the scorching sun. On Teacher's Day, 2017, our Principal, Dr. Dinesh Khattar, members of the Garden committee, students of the College and the Malis participated in planting beautiful plants like Ixora in Ashok lawns.

On 11th November 2017, a ceremonial programme was organized in the College. The same College building and its garden were beautifully decorated by a variety of plants namely marigold, different varieties of palms, crotons, Araucarias brought from nurseries at Nilothi, near Nangloi. It is worthwhile to mention that on this day two lifts were also inaugurated that added to disabled friendly nature of our College campus.

On Founder's Day of the College, the Committee members were engaged whole heartedly in planning and executing on hoe to decorate the campus. Ashok lawns looked quite amazing with the contrasting lush green grass and the glittering bright red Salvias. Along with Salvias, flower beds of the lawn were blooming with Phlox, Mathiolas, Dianthus and Clarkia. Corridors of the College were beautified with the Tagetes, Dahlia, Petunia along with the crotons and Areca palms.

Apart from the hard work, the Committee faced certain challenges as well. Non-availability of adequate water for watering the plants was the primary one. The Committee members discussed the same at length with the Administration. It promised to find a suitable solution to it.
